Quick Mat Information

Selecting a Backing Tread

The backing surface of your mat should be chosen based on the type of flooring the mat will be placed on.

- **Smooth Backing**: Recommended for hard floor surfaces
- **Full Cleated Backing**: Recommended for carpeted floors
- **Universal Cleated Backing**: A “universal” backing for use on hard or carpeted floors

Mat Sizes

Mat sizes are generally listed in feet, but that is a generalization as mats are measured in inches. As an example, a 2’ x 3’ WaterHog Inlay mat is made in a mold that measures 23” x 35”. But the final mat won’t always measure 23” x 35”. During the manufacturing process, the rubber is heated so it will permanently bond with the fabric surface. Rubber shrinks and expands in conjunction with temperature and time, so there’s an acceptable manufacturing size variance of 3-5%.

Each mat product has different measurements which are available at www.mamatting.com.
